Car & Earbud Bluetooth® Music Receiver (Hands-Free)

Power ON/OFF

- Power On – Press power button for three seconds you will hear 'Pairing'.
- Power Off – Press power button for three seconds you will hear 'Power Off'.
- Automatic Shutdown Function – After five minutes of no connection, it will shut off.

Charging/Recharging

- When the battery is low, you will hear 'low battery'.
- Connect the USB charging cable to a computer USB port or DC power and the Micro USB plug to the charging port of the device. The LED will flash red while charging.
- The built in lithium-ion battery will charge in 30 minutes for 4 hours of play time.

Connecting Auto Device

- To connect wired earphones, insert the 3.5mm jack into the devices auto output port.
- To connect to a speaker or car audio use the 3.5mm jack connector. Plug one end into the device and the other to the audio player.

Pairing

- Press and hold until you hear 'Pairing'.
The blue and red indicator light will flash rapidly.
- The device will search for available Bluetooth device and connect.
- Once paired successful, it will automatically connect to the device.
- Two Bluetooth devices can be enabled at the same time

Music Controls

- Short press of Power button to Pause and Play Music.
- Short press of + or – controls the volume.
- Long press of + for next song
- Long press of – for previous song

To Answer Phone Calls

- Short press of Power/Phone button to answer call.
- Long press of Power/Phone button rejects call.
- Double press of Power/Phone button to dial the last phone number called. Then short press the Power/Phone button to cancel call.
